☐ Continuation Sheet Attached☐ Proposed Amendment or Arguments Attached

Brief Description of Arguments to be Presented:

Examples in the Specification do not limit the invention to identical individual insureds. As discussed in the Specification, traditional products track market value only at the contract level. Spec. ¶ 6. But being non-traditional, embodiments of the claimed invention can track market values for individual insureds as well, as shown in the tables provided in the Specification. Thus, the individual insureds need not be identical and "market value" is adequately defined. A more detailed agenda will be provided closer to the interview date.

An interview was conducted on the above-identified application on _____.

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
